Testimonial: Haast River Safari

To Whom It May Concern,

AAT Kings first contracted Haast River as an optional excursion on all of our tour programs three years ago. We sent a number of "test" tours through to see how well they were able to operate and if our clients enjoyed the overall experience.

I am very pleased to advise that Haast River Safaris exceeded our expectations with their type of product, delivery and client satisfaction. Their operation is well run, marketed very well, and they offer fantastic support to our road staff that are often selling and arranging the excursion on our client's behalf.

Their covered jet boat offers our type of client a comfortable, soft ride, and also means a unique jet boat/scenic experience which can operate in any condition.... from sunny blue skies to enjoying the thundering water falls on a typical West Coast day!

AAT Kings have a good support for this product. The number of sales exceeds all other jet boat sales that we currently offer in the South island. Their timings fit well into our scheduled tours, and clients seem to enjoy the time away from the coach and seeing the scenery from a slightly different perspective.

AAT Kings would have no hesitation in recommending Haast River Safari as a truly unique and professional operator who deserves some further recognition for their hard work and unique product.

If you require any further information, please feel free to contact me directly on DDI (09) 300 1512.

Kind Regards

Bruce Gentry
General Manager Tour Operations
